

RoboMaster Competition

Game Design Document · Template

Fill in every required field. Test for whether a field is finished: could a referee who has never met you run your game from this page alone? Turn in a draft before Stage 1 and a final version after Stage 2, uploaded to Schoology by your crew's Media and Rules lead.

Crew Information

Crew name / number:

Section (circle one): Middle School / High School

Date:

Crew roster and lead roles

Role	Crew Member Name	Contact
Pilot		
Programmer		
Engineer		
Media and Rules		

Middle School crews of three: circle the two roles one student is doubling up, and name that student above.

Required Fields

1. Game name and the one-line pitch

What the announcer says, and what a spectator sees happening.

2. Setup

What you build, roughly how big, what it is made of.

3. How to play

Robots per side, match length, what starts and stops the clock.

4. How you score and how you win

Every way to earn a point, with the number. How a tie is broken.

5. Rules and penalties

What is illegal, what it costs, and the safety rules specific to your game on top of the class safety rules.

6. Referee script

What the ref says and does, in order, start to finish.

Bonus Fields: not required of anyone

Bonus: Field diagram

A field diagram drawn to real measurements. Attach as a separate sheet or photo if easier than drawing in this box.

Bonus: Program notes

If your game uses a program: what it does, when it runs.
